

THE PREMADUN COMPANY SETS UP IN DUNKERQUE

MAHIEU CONSTRUCT SA, a Belgian company based in Comines (B), specialising in the design, manufacture and assembly of industrial and agricultural buildings made of steel frame or reinforced concrete, has signed a building lease for the occupation of land in the municipality of Loon-Plage with the President of the Executive Board of Dunkerque-Port.

As part of its development dynamic, MAHIEU CONSTRUCT SA wishes to set up a new activity for the production of prefabricated parts made of reinforced concrete.

To launch the business, MAHIEU CONSTRUCT has created a limited liability company under French law, PREMADUN SARL.

The land, with an area of 1 hectare, which will be used to house the manufacturing facility for prefabricated parts used in construction or for building, is located near the Pont à Roseaux, on the Route des prés Février, in Loon-Plage.

In the first phase of the project, the concrete will be delivered ready for use by the Flandres Béton Company located in the River Port area in Loon-Plage. In the second phase, PREMADUN plans to manufacture its own concrete on its site.

PREMADUN should start up business in the first quarter of 2020.

About Dunkerque-Port:

The largest French port complex (Calais-Dunkerque); the ninth largest port on the Channel and North Sea Range and France's third-largest port, Dunkerque-Port has built a reputation in many sectors: it is the largest passenger port in Europe (Calais-Dunkerque hub); France's largest energy hub; the country's largest LNG terminal; the leading French port for containerised fruit and vegetable imports; the largest French port for ore and coal imports; France's largest rail port; the region's largest waterway port; and the third-ranking French port for grain traffic. Dunkerque-Port is also a sustainable port. It is the trading port of the new Hauts-de-France Region, the largest agricultural region of France, the leading region for the rail industry, and the leading region for the car industry. 2018 Traffic: 51.6 Mt
